

VMware on OVHcloud

PRODUCT DATASHEET

VMware on OVHcloud

VMware on OVHcloud is a single-tenant, dedicated environment Hosted Private Cloud, designed to enhance security and control. Offered as a bundle of VMware software platform and physical infrastructure, it is deployed, managed, and maintained by OVHcloud.

TRUSTED AND SUSTAINABLE CLOUD PLATFORM

- **Isolated environment with high security policies**
- **Integrated with existing VMware stack**
- **Global reach covering various locations and local regulations**

USE CASES

Move to Cloud	Disaster Recovery	Datacentre Extension	Application Modernisation
• Benefit from managed clusters with no vendor lock-in • Rehost applications quickly and seamlessly • Develop your cloud-first or hybrid-cloud strategy	• Get resilient backup platform that mirrors your infrastructure in just a few hours • Adjust replication type to suit your business needs • Activate DRP quickly without interrupting your production	• Opt for OVHcloud Connect to securely connect your on-prem infrastructure to VMware on OVHcloud • Use standard VMware API/SDK to automate workload management	• Enhance business agility and productivity with Tanzu and NSX • Scale and automate production • Reduce your carbon footprint

STARTER PACKS

OVHCLOUD MANAGED VMWARE VSPHERE

- vSphere Enterprise Plus
- Dedicated and managed VMware cluster
- VMware Aria Operations Advanced

NETWORK SECURITY VIRTUALISATION

- vSphere Enterprise Plus
- Dedicated and managed VMware cluster
- VMware Aria Operations Advanced and VMware NSX

HYPERCONVERGED STORAGE

- vSphere Enterprise Plus
- Dedicated and managed VMware cluster
- VMware Aria Operations Advanced
- VMware vSAN & NVMe storage

SOFTWARE-DEFINED DATACENTER

- vSphere Enterprise Plus
- Dedicated and managed VMware cluster
- VMware Aria Operations Advanced
- VMware NSX, VMware vSAN, and NVMe storage

INCLUDED IN STARTER PACKS

- VMware SDDC software: vSphere vSAN, NSX-T, vCenter Server, Aria Operations;
- 2 or 3 hosts (depending on the chosen pack), equipped with Intel Xeon Gold or Silver processors;
- 2 x 3 TB SSD datastores;
- 99.95% service level agreement, excluding planned maintenance;
- Security updates and version upgrades managed by OVHcloud;
- Anti-DDoS protection;
- Private network vRack;
- 20 Gbps public network bandwidth;
- OS image catalogue;
- Global VMware support;

ADDRESS YOUR DATA PRIVACY CONCERNS

- GDPR compliant, ISO/IEC 27000, SecNumCloud option, finance, and healthcare certifications
- Data and operational sovereignty in Europe and Canada
- 24/7 maintained hosts

MIGRATE WITHOUT RESKILLING YOUR TEAM

- Standard software stack and APIs: vSphere, vSAN, NSX-T, Tanzu, and Aria
- Available in less than a day*
- On-demand resources and no long-term commitment

RETAIN CONTROL OF YOUR CLOUD SPENDINGS

- OPEX model and monthly/hourly billing
- Ingress and Egress traffic included at no additional cost
- Private network vRack included

ACHIEVE YOUR ESG OBJECTIVES

- **VMware Zero Carbon Committed** Partner
- **0.20T CO2e/MWh** Carbon Usage Effectiveness in 2022
- **1.28 PUE and 0.26 WUE** (L/kWh IT) indicators in 2022
- Optimized server lifecycle

EXPERTS AT YOUR SERVICE

- Our Professional Services experts and Customer Service teams are always ready to provide you with the support you need, anytime.

COMPLEMENTARY SERVICES

**ADDITIONAL HOSTS
AND DATASTORES**

**ADDITIONAL IP AND
BYOIP SERVICE**

**VEEAM MANAGED
BACKUP**

**VEEAM MANAGED
BACKUP**

**ZERTO DISASTER
RECOVERY**

**OVHCLOUD
CONNECT**

Enterprise Support

Key account experience for critical production environments.

Professional Services

Consulting, architecture design and onboarding services.

Certifications and Compliance

Maintaining data confidentiality.

*Depending on the current availability in the datacentres.
