Pricing model

Pay-as-you-go

All of our SNC Cloud Platform Services are billed based on actual usage, which means you only pay for what you use. You launch the resources you need, when you need them, with no hidden costs. At the end of the month, we calculate your final bill, based on the resources you have used over that period, and deliver it as a single, clear invoice.

Contract duration

On-demand resources are non-binding. You can remove a resource at any time, after which you will not be billed for it.
Likewise, instances with monthly billing can be stopped at any time, and only the months you use are billed (calculated on the basis of an instance existing on the 1st day of the month, at 00:00).

Mandatory Support

Minimum support level requered for SNC Cloud Platform is Business.
You can also subscribe Enterprise support. A customised support and a dedicated Technical Account Manager contact enhance the customer experience.
All operations related to services and hosted data are handled solely by EU-based staff.
